

NETPAL – Giving Voice to Palestinian Children: Recovering from Trauma and Bearing Witness Amid Ongoing Trauma

Truthful storytelling preserves Palestinian memory, heritage, and culture.

Where violence seeks to erase voices, testimony becomes resistance.

Trauma is often described as speechless terror – experiences so overwhelming they cannot be spoken. Through healing and narrative, silence is transformed into truth that endures.

Why your support matters:

- Because silenced suffering must be acknowledged to feel seen and regain self-worth.
- Because healing trauma

restores the ability to speak, remember, and live.

- Because safeguarding memory protects identity, heritage, and human dignity.

In the blessed month of Ramadan, we invite you to support the NETPalestine initiative of vivo international (“victims voice”).

This trauma-focused program provides psychological care for children, youth, and families affected by war in Gaza, helping survivors reclaim their voices and restore dignity through Narrative Exposure Therapy NET.

»Whoever stays until the
end will tell the story.

We did what we could.

Remember us.«

This is the message that was left by Dr. Mahmoud Abu Nujaila on a board at Al-Awda Hospital – Northern Gaza. He was killed on 21 November 2023, along with Dr. Ahmad Al Sahar and Dr. Ziad Al-Tatari, in an airstrike.

These words, shared by a Palestinian physician, remind us:

**To remember is a moral act.
To tell the story is an act of justice.**

Your donation at the end of Ramadan is a lasting charity – supporting healing, defending children’s truth, and preserving the Palestinian story for the generations to come.

We work with partners and donors who share our value of equality, respect and

humanity, striving together to heal trauma and prevent its intergenerational transmission – building a future of dignity.

Wishing everyone blessings and good luck, from your NETPAL Project!

The Initiators

Dr. med Tarek Jebrini
